Birds fly, fish swim, children play (Landreth)

Childplayworks is very pleased to offer specialised training in Child Centered Play Therapy with this training being New Zealand-based and providing ongoing support for trainees throughout their training process.

In September of this year, we had great pleasure in awarding our first group of trainees with a Childplayworks Certificate of Completion of Modules 1-5 (Phase 1 of training). We have been very privileged to work alongside this wonderful group of people as they have journeyed into the unique world of Child Centered Play Therapy. We will be meeting again in August 2012 for Module 6, and we will also be in contact regularly throughout 2012 in the online forum (a required component of Module 7). Modules 6-7 comprise Phase 2 of training. Module 7 is our online module and is completed long-distance. For this module, we are privileged to be able to access online presentations from overseas presenters who are experts in the field of Child Centered Play Therapy. The final details of this module are yet to be confirmed.

We are now starting out with our second group of trainees. We are enjoying being alongside them as they embark on their journey and as they explore the wonderful world of CCPT. We completed Module 2 earlier in November and we will be meeting again in April 2012 for Module 3.
