Inkjet Cartridge and Mobile Phone Recycling Scheme
Raising Funds For Your Child's School

Dear Parents,

We are involved in ***Support Your School***, a recycling programme that raises funds for us.

The programme is very simple. We just need to recycle used inkjet cartridges and unwanted mobile phones. We will receive £1 per cartridge and up to £150 per mobile phone for each listed item that can be recycled and reused.

Please check at home, at work and with family and friends for any unwanted mobile phones and used printer cartridges (if they are on our list of suitable types).

We are sending a recycling bag home with each child. Please fill it with any of these items you collect (you can put phones and cartridges in the same bag). Please seal the bag and hand it back in to the school when it is filled. The collection box can be found in the school library, next to the House Points.

Each item we receive contributes to valuable funding for our school, so do ask at work or at any out of school clubs for support too.

To see the list of suitable items and find out more visit the Parents Area of the website; www.supportyourschool.co.uk .

If you require more bags or want to get involved further, please contact me or leave a message at the school office.

With thanks
Jenny Baker
