precisionconversions.com

Together, we set the standard for 757 freighters. You wanted to lift more. We gave you 15 full cargo positions, the lowest operating empty weight of any converted 757 freighter and offer up to an impressive 80,000 lb payload.

Precision Conversions 757-200PCF freighters leave nothing behind.

Listed below are the weight upgrade options for both Rolls-Royce and Pratt & Whitney powered 757s (FAA & EASA approved). To learn more, give us a call.

In Pounds

Engine Type	Line Number	Minimum Incoming Weights (Lbs)				MZFV Upgrade (Lbs)	Net MZFV Increase (Lbs)	OEM SB 757-54-0034 Required (Strut Improvement)
		MTW	MTOW	MLW	MZFV			
RR	2 to 209	231,000-251,000	230,000-250,000	198,000	184,000	188,000	4,000	No
PW	2 to 209	231,000-251,000	230,000-250,000	198,000	184,000	188,000	4,000	Yes
RR	210+	241,000-251,000	240,000-250,000	210,000	188,000	196,000	8,000	No
PW	210+	241,000-251,000	240,000-250,000	210,000	186,000	194,000	8,000	Yes

In Kilograms
