TrackQ E 1 EVERYONETEXTS.COM T TrackQ

Child Tracking managed by Admin via parent phone, web or scheduling

Your phone becomes your personal GPS Monitor. Parents or Guardians can check Child's current location with the push of a button.

Feel more in touch when Your Child walks or rides their bike to school or
Know where they really are after school

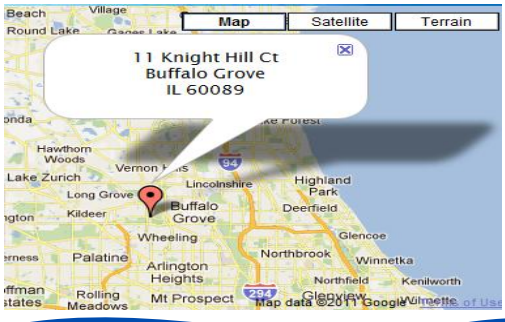
If Child exceeds anticipated radius of travel the Parent is notified along with school officials

TrackQ

Save lives. React Fast. Stay Connected,
Know where Your Loved Ones Are Now.

Panic Button On All Screens

Emergency Panic button that notifies parents and family an Emergency has occurred along with the Location where it occurred



Trace and monitor routes traveled - by intervals of minutes while also storing the speeds driven

Know where Your Child is at any time with a <<<<<<<<<<<<<<<<< click of the mouse

If Child attempts to override the system then the Parent will be notified of attempt
