

NINTEX® WORKFLOW2007™ Workflow for Everyone™

Build complex workflow processes in SharePoint, quickly and easily.
Connect SharePoint to Enterprise Systems.

Benefits for your business:

- ✓ Automate business processes
- ✓ See real-time feedback of workflow activities
- ✓ Create workflows in hours not days
- ✓ Automate common SharePoint administrative tasks
- ✓ Generate rich enterprise-level reporting
- ✓ Draw it, not code it

Exclusive LazyApproval® System,
approve or decline in real language,
even when mobile.

Benefits for developers:

- ✓ Connect to external data via SQL, Web Services, LDAP, XML
- ✓ Create and use your own Workflow Foundation activities
- ✓ Interact via a Web Service API
- ✓ Extend and customize using the Nintex Workflow SDK
- ✓ BizTalk integration*
- ✓ Active Directory provisioning*

Extend MOSS with advanced workflow capabilities all within a web-based GUI embedded within SharePoint.

System requirements

Nintex Workflow 2007 requires Microsoft Windows SharePoint Services 3.0 (WSS) or Microsoft Office SharePoint Server 2007

* These features available with Enterprise Edition

500+ Customers in 35 Countries

"Nintex Workflow 2007 allows business users to harness the power of SharePoint 2007 technologies without specialist skills. My favorite feature is "LazyApproval" where a person can approve work items via email."

Angus Logan - Technology Specialist (Office Platform), Microsoft

Graphical Web Interface

- Browser based client (no desktop software required)
- Easy to use drag and drop workflow designer
- Visual workflow progress

Management Features

- Manage MOSS user profiles and audiences*
- Account Provisioning*
- Enterprise reporting*
