

# Moonwalk to Base...

---

**Directions:** One player takes the role of “The Moon Creature” or “Maiden in Moon Distress”. This player will be the center of the game. Have the Moon Creature or Maiden removed from the room before you let the other players know the game is starting. Create the story base: Either a Moon Creature is on the Prowl or you are trying to find the Distress Maiden who’s been kidnapped. The other players must try to remember details about the missing player and relay them back to the Base Ship!

The player with the best memory wins. In there is a tie, continue asking more questions about the player you removed from the room, until one player is left as the Winner!
