To Whom It May Concern:

BAM Contractors (Ascon - Rohcon Ltd.) have over the past number of years engaged the services of Raymond Poole and his Professional Services Team at PMPS to provide BAM Contractors. with the necessary skills/services to implement Primavera Planning/Scheduling Software across our organisation.

We have always found Raymond and his team provided their services with integrity and to a high professional standard. In addition we have sent a number of staff members over the years to Raymond for Training on the various Primavera software packages and the feedback to these courses have always been very positive.

It is refreshing to find a software provider company who not only knows and understands the software but also the industry they sell into. One of the many good characteristics PMPS have is the ability to listen to the client and in doing so be client focused.

We would have no hesitation whatsoever in recommending PMPS to any prospective client who would require any of the following services:

- Primavera Implementation Services.
- Primavera Mentoring Services.
- Primavera Training.
- Professional Services in relation to Planning/Scheduling.

Yours faithfully,

Tom Bambrick
Group ICT Manager
