

Pegasus Mystic™ Large Volume Nebulizers

And Pegasus Nebulizer Heater

Low Cost - - - - Easy To Use - - - - Quick Set Up

The Pegasus Mystic™ Nebulizer

40 Per Case

P3000N Normal Flow (Low Flow) Entrainment

P3000H High Flow Entrainment

The Pegasus Mystic™ P3000N nebulizer is designed for systems up to 12 lpm of O₂ input. Output is from 24 to 68 LPM total flow at 28%-60% FIO₂

The Pegasus Mystic™ P3000H nebulizer is designed for systems up to 44 lpm of O₂ input. (flush with input orifice limited to 44lpm). Output is from 30 to 47 LPM total flow at 36%-95% FIO₂. Dilutes down to 36% FIO₂ eliminating the need in most cases to switch to a lower FIO₂ unit.

The Pegasus P2001 Nebulizer Heater is available for both nebulizer systems. The P2001 is a “full platen” heater designed to generate enough heat to warm even high flow delivery. This heater comes standard with a 1-yr. warranty.
