

Pumpkin Lager

Lakefront Brewery's Pumpkin Lager is the only pumpkin lager available in the world; all other pumpkin beers are ales. Using real pumpkin and a proprietary blend of spices made here in Milwaukee for us by the acclaimed Spice House, our brewers lager this beer for 4 full weeks. This extra time gives the Lakefront Pumpkin Lager a deep, smooth richness that no ale can match. A frothy entry leads to a off-dry medium-to-full body of intense cinnamon, nutmeg, cardamom, and candied yam flavor on a nutty wheat toast palate. Finishes with a drier spice and light toffee fade. Caramel and Munich malts reinforce this beer's mouthfeel and lend to the malty sweetness. A nicely balanced spice beer for those cool fall nights.

Serve our Pumpkin Lager with holiday meals: the spice characters really bring out the depth of full-flavored meats and vegetables.

Alcohol by volume - 6.0%

Available in the following formats:
Cases - 4/6/12 oz Bottles (355 mL)
