Course P6-002 – Advanced Primavera P6

This 1-day course provides the student with additional knowledge for Primavera's P6 client/server based solution. Building off skills learned in the basic course P6-001, the P6-002 course covers advanced subjects such as Top-Down Estimating; Reflection Projects; Manual Resource Allocation; Updating Baselines; Duration and Percentage Complete Types; User-Defined Fields; Global Change and Bucket Planning. Hands-on workshops enable students to apply skills learned throughout the course.

Learning Outcomes:

- Execute Top-Down Estimating
- Create and Update a Reflection Project
- Analyse resource usage using Resource Usage profile and Resource Usage spreadsheet
- Assign resource lag and duration to Resource Assignments
- Specify activities to update in the Baseline
- Distinguishing between the 4 different Duration types
- Calculate percentages based on the chosen Percent Complete type
- Establish User-defined fields and define Global Change parameters

Prerequisite: Course P6-001

Course Length: 1 day

Course Price: €595 Euro per person (Includes student training manual and lunch)

*****Payment must be received in full upon registering in order to secure your place*****

Course Outline

- Top-Down Estimating
- Duration Types
- Calculating Percent Complete
- Reflection Project
- Updating Baselines
- User-Defined Fields & Global Change
- Creating Resources & Roles
- Defining Resource Codes
- Resource & Role Analysis
- Manual Resource Allocation
- Bucket Planning

**Appendix Modules:*

- Claim Digger (Schedule Comparison)

*Appendix Modules are generally not covered during the course but are there as a reference point to students for later on.
