

## **EARTHFIRST Recycling Services**

**Presented by Universal Business Supply, Inc**

To assist our customers and help our world and its environment, UBS is announcing our EARTHFIRST Recycling Services.

**Our recycling program is currently offering recycling of all of your paper, cardboard, aluminum, plastics, toners and ink cartridges, batteries, electronics, and cell phones.**

Your Sales Representative and our delivery team will coordinate the items you wish to recycle, the days the pickups will be made, and the locations within your building to pickup from.

Because of the depressed market for material to be recycled, UBS does not generate any revenue from the material we receive from you.

But we strongly feel keeping anything that can be reused out of a dumpster and landfill is the RIGHT THING TO DO-for us, and our future generations.

Thank you
