

Data Sheet

COBS C-2110 Security Handset

Flexibility in Hazardous Environments

The COBS C-2110 Security Handset is designed for staff working in hazardous environments. It has all the functionality of a DECT cordless phone with an integrated duress alarm button, making it ideal for low to medium risk environments.

Integrated Alarm Function

Staff working alone or in hazardous environments need the protection of an integrated alarm function. A large easily accessible red alarm button is placed on the top of the handset.*

Robust, Durable Design

Staff working in a harsh environment need a robust and durable handset. The handset is dust and water resistant with an IP64 industrial classification.

Graphic Display with Time and Date

The display has 4 lines for text and symbols. Max. 36 characters. Illuminated display.

Rotated Text in the Display

This function makes it easier for personnel to read a message when the handset is attached to a belt clip without having to remove the handset from the clip.

Hands Free Speakerphone

Enables the handset to be used for desktop conferencing.

Headset Jack

Supports headsets with standard 2.5 mm jack.

Built-in Vibrating Ringer

For noisy environments or when discretion is required.

Telephone Book

Memory for up to 65 numbers and redial function for the last 20 numbers.

User Friendly Menu

Navigation keys allows easy orientation in the user friendly menu system. For access to the most common functions there are soft keys that can be personalised.

Message Function*

Enables alarm messages to be sent to other handsets of a user presses their alarm button.

* When connected to a compatible KIRK DECT System with alarm software installed.
